

# Interchangeable Plate Sandwich, Waffle, and Grill Maker

This sandwich maker features interchangeable plates for creating sandwiches, waffles, and grilled foods. It has non-stick cooking plates, power on and ready indicators, and a thermostat control.

## Product Overview

### Versatile 3-in-1 Kitchen Solution

This multifunctional sandwich, waffle, and grill maker is designed to streamline kitchen operations with its interchangeable cooking plate system. Featuring a cool-touch exterior and thermostat-controlled heating, it ensures consistent results for various food items. Its compact design, including upright storage capabilities, makes it an ideal space-saving appliance for diverse culinary environments.

## Key Features

### Design Highlights

- Cool touch housing
- Non-stick cooking surfaces
- Power and ready indicator lights
- Thermostat control
- Upright standing storage

### Plate Types Included

Sandwich, Waffle, Grill, Shell Shaped

## Technical Specifications

### Performance Metrics

**700 W**

Power Output

### Supported Voltages

120V, 230V

## Logistics & Packaging

### Packaging Information

Metric	Value
Units per Carton	6 pcs
Carton Dimensions	600 x 440 x 352 mm
Gross Weight	12 kg
Net Weight	11 kg

### Container Loading Capacity

Container Type	Quantity
20GP	3120
40GP	6240
40HQ	7200
