

Interlocking Foamed Plastic Floor Mats with Number Designs

These foamed plastic floor mats interlock to create a cushioned surface. Each mat features a different number, making them suitable for play areas and educational environments.

Product Overview

Educational Interlocking Floor Mats

These interlocking foamed plastic floor mats provide a versatile and safe flooring solution designed for children's play areas, classrooms, and educational environments. Each mat features a distinct number, offering a practical way to combine comfortable cushioning with visual learning opportunities. The modular design allows for easy assembly and customization to fit various room sizes.
