

Internal Combustion Counterbalanced Forklift Truck

This internal combustion forklift truck is designed for lifting and transporting heavy loads. It features a robust mast, hydraulic lifting system, and operator cabin for efficient material handling.

Overview

Industrial Material Handling Solution

This internal combustion counterbalanced forklift truck is engineered for heavy-duty lifting and material transport in demanding industrial and construction environments. It features a robust mast design and a high-performance hydraulic lifting system to ensure efficient operations. Designed with operator safety and comfort in mind, the cabin provides excellent visibility and control for precision maneuvering.

Technical Specifications

Rated Capacity

1.5 ton

Load Capacity

Power Type

Internal Combustion

Model Designation

CPC15

Equipment Type

Counterbalanced, Forklift, Industrial
