

Internal Combustion Engine

This is an internal combustion engine. It is suitable for various machinery applications.

Product Overview

Reliable Internal Combustion Engine

This versatile internal combustion engine is designed for a wide range of industrial and machinery applications. Featuring a robust green-painted engine block and a distinct silver-colored air cleaner assembly, this unit is engineered for durability and consistent performance. This refurbished unit includes essential components such as a front-mounted cooling fan, making it a ready-to-integrate solution for various equipment needs.

Technical Specifications

Condition

Refurbished • Used

Engine Type

Internal Combustion

Key Features
