

Internal Combustion Engine

This internal combustion engine converts fuel into mechanical energy. Its components include a crankcase, cylinder head, carburetor, hoses, and mounting brackets.

Overview

High-Performance Combustion Engine

This internal combustion engine is engineered for reliable power delivery and mechanical efficiency. Featuring a robust construction with a distinct silver crankcase and black cylinder head, it is designed for demanding automotive applications. The unit includes an integrated carburetor system, essential hoses, and mounting brackets, ensuring a comprehensive solution for vehicle integration.

Technical Specifications

Engine Type	Internal Combustion
Component Finishes	Silver Crankcase, Black Cylinder Head

Included Components

Included Components

- Carburetor
- Mounting Brackets
- Engine Hoses
