

Internal Threaded Connector

These internal threaded connectors are available in various sizes. They provide secure and reliable connection solutions for different applications.

Product Overview

Internal Threaded Connector

This internal threaded connector is designed for reliable and secure pipe or conduit joining applications. It offers precise dimensional accuracy to ensure a tight fit across various nominal diameters. Built for industrial use, this component facilitates efficient assembly in plumbing or mechanical systems.

Technical Dimensions

Size Specifications

Code	Nominal Diameter (mm)	D (mm)	L (mm)	A (mm)	Thread (M)
DH40/B2	40	40.6	26	43	G1.25"
DH50/B2	50	50.67	25	48	G1.5"
DH50/B3	50	50.67	27	48	G2"

Available Nominal Diameters: 40mm, 50mm
