

International Labor Cooperation Services

Offers international labor cooperation services. Focuses on connecting businesses with skilled labor for various industries.

Service Overview

International Labor Cooperation Services

This service facilitates international labor cooperation, specializing in the recruitment, training, and placement of skilled trainees for overseas assignments, primarily in Japan. The program ensures that all candidates undergo rigorous preparation, including over six months of language training and professional competency testing. By maintaining high standards of honesty and excellence, this service connects qualified personnel with international trade requirements.
