Product Overview

Ionic Detox Foot Bath System

The Ionic Detox Foot Bath System is a revolutionary spa treatment designed to re-balance and re-energize your body's bio-energy. By utilizing an ionic process, it helps stimulate and cleanse the feet, supporting the body's natural detoxification processes. This system is designed for home use to promote overall well-being and restore the equilibrium between positive and negative ions.

Technical Principles

Bio-Energy Balance

- Target balance: 80% negative electrons (Anion)
- Target balance: 20% positive electrons (Cation)
- Supports natural body detoxification
- Aims to expel harmful toxins

Environmental Impact Factors

Air pollution, Contaminated water, Electromagnetic radiation, Soil erosion, Global warming

System Components

Included Components

- Water basin
- Electrolysis array
- Control unit

Usage & Application

Intended Use

Home Use • Foot Care • Well-being • Relaxation
