

Ionic Hair Dryer with Cool Shot

This hair dryer features an ionic function with an on/off switch and LED light to preserve hair strength. It operates at 230V/50Hz with a power of 1800W and includes 2-speed settings, 3 temperature controls, and a cool shot function.

Overview

Professional Ionic Hair Dryer

This high-performance hair dryer is engineered with advanced ionic technology to maintain hair vitality and strength during the drying process. Featuring a specialized 'Vital Function,' it automatically optimizes temperature and speed for optimal results. Its professional design combines silent operation with versatile settings, making it an ideal choice for professional salons or premium grooming applications.
