

Ionic Tourmaline Travel Hair Dryer

This travel hair dryer features ionic and tourmaline technologies. It has variable power up to 1300W, multiple speed and temperature settings, and includes concentrator nozzles.

Product Overview

Compact Professional Performance

This ionic tourmaline hair dryer is engineered for both professional and travel use, delivering efficient drying power in a lightweight, ergonomic package. Featuring advanced ionic and tourmaline technologies, it works to minimize frizz while maintaining hair health during the styling process. With a durable long-life motor and customizable settings, this dryer provides the reliability needed for high-frequency use.
