Overview

Robust Illumination for Modern Spaces

This IP65-rated LED step light is a versatile lighting solution engineered for both indoor and outdoor environments, including hotels, apartments, and office buildings. It features a durable, weather-resistant construction that ensures long-lasting performance in demanding conditions. With its sleek design and energy-efficient LED technology, it provides a soft, even glow that enhances safety and aesthetics for stairways and pathways.

Technical Specifications

IP Rating

IP65

Color Temperature (CCT)

- 3000K
- 4500K
- 6000K

Input Voltage

AC100-240V 50/60Hz

Power Consumption

1.5 W

Luminous Flux

50 lm

Construction

Materials

Stainless steel, Aluminum, PC

Applications

Recommended Applications

- Hotels
- Apartments
- Office buildings
- Parks
- Villas
