Product Overview

Robust Architectural Lighting

This IP65-rated LED step light is engineered for both indoor and outdoor architectural applications, providing reliable illumination for pathways, staircases, and wall features. Constructed from a durable blend of stainless steel, aluminum, and PC materials, it offers a sleek, modern aesthetic suitable for commercial and residential environments. With its versatile input voltage range and energy-efficient 1.5W output, it is an ideal solution for hotels, office buildings, and public spaces requiring weather-resistant lighting.

Technical Specifications

IP Rating

IP65

Color Temperature (CCT)

- 3000K
- 4500K
- 6000K

Power Consumption

1.5 W

Lumen Output

50 lm

Input Voltage Range

AC100-240V 50/60Hz

Construction & Design

Materials

Stainless Steel, Aluminum, PC

Applications

Suitable Environments

- Hotels
- Apartment Complexes
- Office Buildings
- Parks
- Villas
