

# IP65 Waterproof LED Fixture

This IP65 rated LED fixture provides waterproof and dustproof lighting for demanding environments. It features a durable PC housing, offering a long lifespan and energy-efficient illumination.

## ADDITIONAL IMAGES

## Product Overview

### Robust Industrial Lighting Solution

This IP65 rated LED waterproof fixture is engineered for demanding environments that require superior protection against water and dust ingress. Constructed with durable PC material, it delivers reliable, energy-efficient illumination suitable for industrial, commercial, and outdoor applications. With a long service life and high-quality construction, this fixture is an ideal, low-maintenance choice for stations, underground areas, and various outdoor settings.

## Technical Specifications

### IP Rating

IP65

### Luminous Efficacy

**100 lm/w**

Luminous Efficacy

### Color Temperature Range

4000K - 6500K

### Lifespan

30000 hours

### Operating Temperature

-20°C to +40°C

## Construction & Design

### Housing Material

Polycarbonate (PC)

### Fixture Shape

Square

### Electrical Class

Class II

## Compliance & Warranty

Certifications	CE, TUV, GS, CB, EMC
Warranty Period	3 years

## Applications

### Recommended Usage

- Stations
- Underground areas
- Outdoor areas
- Factories
- Warehouses
- Parking garages
