Product Overview

The isolator switch features a robust, weatherproof design with a clear ON/OFF indicator and lockable handle for safety.

High-Performance Weatherproof Isolation

This IP65-rated isolator switch is engineered for reliable electrical disconnection in demanding outdoor and industrial environments. Available in versatile 1 to 4-pole configurations, it features a UV-resistant enclosure and a lockable handle to ensure maximum safety during maintenance. Designed to withstand dust and water ingress, it provides a robust solution for motor control, lighting circuits, and general power isolation.

Technical Specifications

Rated Voltage

240 V

Single Phase

415 V

Three Phase

Pole Configurations

- 1 Pole
- 2 Poles
- 3 Poles
- 4 Poles

Available Current Ratings

20A, 35A, 63A

Rated Frequency

50/60Hz

Protection & Durability

Ingress Protection

IP65 Weatherproof

Enclosure Features

- UV-Resistant Material
- Dust-tight Construction
- Water-jet Protection
- Lockable Safety Handle

Applications

Recommended Use Cases

- Motor Control
- Lighting Circuits
- General Power Isolation
- Residential Installations
- Commercial & Industrial Sites

Logistics & Supply

Model Number

SUKF-4

Monthly Supply Ability

10000 pcs/month

Dispatch Ports

Ningbo, Shanghai
