Product Overview

Industrial-Grade Modular Power Distribution

This modular combination socket system offers a robust solution for power distribution in demanding environments. Featuring an IP67 rating, it provides superior protection against dust and water immersion, ensuring reliability in harsh conditions. The flexible design supports both horizontal and vertical expansion, allowing users to configure power setups to specific industrial requirements.

Technical Specifications

Ingress Protection

IP67

Supported Current Ratings

- 16
- 32

Integrated Components

- Sockets
- MCB
- RCCB

Design Capabilities

Modular, Horizontal Expansion, Vertical Expansion, Impact Resistant, Corrosion Resistant

Certifications

Compliance

CE, TUV Rheinland, CQC
