

Iridescent Glass Aroma Diffuser

This aroma diffuser features a unique iridescent glass design, creating a visually appealing and functional addition to any space. The diffuser utilizes ultrasonic technology to silently disperse essential oils, providing a soothing and aromatic atmosphere.

Product Overview

Elegant Iridescent Glass Ultrasonic Diffuser

This premium aroma diffuser features a unique iridescent glass design that serves as both a functional humidifier and a sophisticated decorative piece. Utilizing ultrasonic cool-mist technology, it provides a silent and soothing atmosphere suitable for hotels, households, or automotive use. With integrated 7-color LED lighting and a compact 100ml capacity, it offers a perfect balance of aesthetic appeal and practical performance.
