

Isuzu Engine Cylinder Head Gasket

This cylinder head gasket is designed for Isuzu diesel and gasoline engines. The multi-layered steel (MLS) gasket provides a superior seal to ensure optimal combustion and prevent coolant or oil leaks.

Product Overview

High-Performance Cylinder Head Gasket

This cylinder head gasket is precision-engineered for Isuzu diesel and gasoline engines, providing a robust seal to ensure optimal combustion. Constructed from durable stainless steel and metal, it is designed to withstand the high temperatures and pressures of demanding engine applications. This component is essential for preventing coolant or oil leaks and maintaining engine integrity during operation.

Compatibility

Compatible Engine Model	4BE1 (With Big Rubber Oil Pan)
Engine Type	Diesel, Gasoline

Technical Specifications

Material	Stainless steel / Metal
----------	-------------------------

Part Numbers

OEM Part Numbers

Component	Part Number
Cylinder Head Gasket	8-94418-921-0
Overhaul Full Set	5-87810-995 / 6-1 / 487 / 8-1C
