

J350 Flush Mounted Adapter

This Caterpillar tooth adapter is a ground engaging tool. The CAT J350 flush mounted adapter provides a secure and flush mounting solution.

Product Overview

High-Performance Flush Mounted Adapter

The J350 Flush Mounted Adapter is a high-quality component engineered for robust performance and extended service life in demanding industrial environments. Designed for seamless integration, this adapter provides a secure and flush mounting solution specifically optimized for metal forming machinery. Its precise construction ensures reliable operation and contributes to the overall efficiency and precision of heavy-duty industrial processes.

Technical Specifications

Material Construction

Durable Metal • Industrial Grade

Model Number	1U1354
Application	Metal Forming Machinery, Heavy-Duty Industrial
Mounting Style	Flush Mounted
