Overview

The machine is built with an ergonomic operator control panel for ease of use.

Versatile Performance for Demanding Sites

The JC65 skid steer loader is a compact and powerful construction machine engineered for high productivity in confined spaces. Equipped with a robust hydraulic system and a reliable diesel engine, it offers precise control for a wide range of tasks including digging, loading, and material handling. The operator cabin prioritizes safety and comfort, featuring intuitive controls and excellent visibility to ensure efficient operation throughout the workday.

Performance

The JC65 features a robust hydraulic system designed for efficient operation of various attachments.

Operating Metrics

650 kg

Rated Operating Capacity

1300 kg

Tipping Load

Key Features

Heavy-duty construction ensures reliability and durability in harsh working environments.

Machine Capabilities

Compact Design, Quick-Attach System, High Breakout Force, Auxiliary Hydraulics, Ergonomic Cabin

Applications

Primary Applications

- Urban Construction
- Landscaping
- Agricultural Operations
- Material Handling
- Site Clearing
