

# Jeep Cherokee XJ Heavy-Duty Front Bumper (1983-2001)

This heavy-duty front bumper is designed for 1983-2001 Jeep Cherokee XJ models. It features integrated mounting points for a winch and D-ring mounts for additional recovery options.

## ADDITIONAL IMAGES

## Product Overview

### Rugged Off-Road Protection

This heavy-duty front bumper is engineered specifically for the Jeep Cherokee XJ (1983-2001) to withstand the harshest off-road environments. Constructed from high-quality steel tubes and sheets, it offers superior durability and enhanced approach angles for serious trail performance. With an integrated winch plate and D-ring mounts, this bumper provides a complete recovery solution without the need for cutting or drilling during installation.

## Technical Specifications
