

Jigsaw for Wood and Metal

This jigsaw is a powerful and versatile tool designed for cutting various materials with precision and ease. The adjustable base allows for bevel cuts, and the quick-change blade system simplifies blade replacement.

Overview

Versatile Cutting Performance

This jigsaw is designed for precision and efficiency in both wood and metalworking applications. Featuring a robust 660W motor and variable speed control, it offers the flexibility needed for various cutting tasks. Its ergonomic, hand-held design ensures ease of use and comfort during operation, making it a reliable tool for professional workshops.

Technical Specifications

Motor Power

660 W

Input Power

Voltage Compatibility

120V/60Hz, 230V/50Hz

No-Load Speed

3000 r/min

Performance

Maximum Cutting Depth

Material	Depth
Wood	65mm
Steel	3mm

Speed Control

1-6 Gear Control

Design

Operation Mode

Hand held
