

JIS Standard Flange Ball Valve

This JIS standard flange ball valve is designed for industrial applications. It features flanged connections for secure, leak-proof installation and reliable performance across various fluids and conditions.

Product Overview

JIS Standard Flange Ball Valve

This JIS standard flange ball valve is engineered for demanding industrial applications, offering robust performance and secure, leak-proof installation. Featuring flanged connections, it is designed for reliability across a variety of fluid types and operating conditions. Its construction ensures durability and consistent operation in challenging environments.

Technical Specifications

Pressure Rating

10K

Key Features

- JIS standard compliance
- Flanged connection type
- Industrial-grade construction
- Leak-proof design

Valve Type	Flange Ball Valve
Standard	JIS
Material Grade	CF8, F8
