

JY700 Skid Steer Loader

The JY700 Skid Steer Loader is a versatile construction machine designed for various tasks. Its compact size and maneuverability make it suitable for operating in confined spaces.

Overview

Versatile Skid Steer Loader

The JY700 Skid Steer Loader is a high-performance construction machine engineered for versatility in confined spaces. With its compact footprint and robust hydraulic system, it offers exceptional maneuverability for construction, landscaping, and agricultural tasks. The unit balances high lift capacity with intuitive controls, ensuring efficiency and operator safety in demanding work environments.

Key Metrics

Operational Performance

3216 mm

Maximum Operating Height

2803 mm

Bucket Hinge Pin Height

2221 mm

Dump Height

2012 mm

Front Turning Radius

Dimensions

Full Dimensional Specifications

Parameter	Value (mm)
Overall Length (with bucket)	3334
Overall Length (no bucket)	2536
Overall Width (outside tires)	1730
Bucket Width	1700
Wheelbase	991
Cab Height	1908
Ground Clearance	185
Dump Distance	760
Rear Axle Centerline to Back Bumper	1015

Operating Angles

Work Geometry

- Dump Angle at Max Height: 39°
- Max Attachment Rollback (Ground): 25°
- Angle of Departure: 14°
