

Karaoke Audio Mixer with Echo Reverb

This karaoke mixer converts audio for PC, iPod, MID, and DVD players. It offers echo reverb effects and individual controls for tone and microphone levels.

Product Overview

Professional Karaoke Mixing Solution

This high-performance karaoke audio mixer is designed to bridge the gap between amateur setups and professional-grade audio quality. Utilizing an advanced YAMAHA reverb chipset, it ensures a seamless blend of vocal and accompaniment tracks while eliminating common background noise. With dual microphone inputs and wide compatibility across PCs, DVD players, and mobile devices, it provides a versatile solution for home entertainment and vocal enthusiasts.

Technical Specifications

Frequency Response	40 Hz-16KHz
Maximum Distortion	1.8 %
Power Input	12V 0.5A DC
Dimensions	175 x 110 x 40 mm
