

Keyboard Replacement Feet with Rubber Pads

These are replacement feet for computer keyboards, constructed from transparent plastic. They feature white rubber pads on the corners to provide enhanced grip and prevent slipping.

Product Overview

Ergonomic Keyboard Support

These replacement keyboard feet are engineered to enhance typing comfort and desk ergonomics. Featuring a durable, transparent plastic construction, they provide a subtle aesthetic that integrates seamlessly with various keyboard designs. Each foot is equipped with high-quality white rubber pads to ensure superior grip and stability, preventing unwanted slipping during intensive use.
