

Kingkong Series Diesel Engine

The Kingkong Series diesel engine is designed for high efficiency and low fuel consumption. Its compact size, lightweight construction, and user-friendly operation make it suitable for various applications.

Overview

Robust Diesel Power

The Kingkong series diesel engine is a robust and reliable power source designed for various agricultural and industrial applications. This engine features a high-performance combustion system for efficient fuel consumption and reduced emissions, ensuring long-lasting operation even under demanding conditions. It is equipped with essential safety and convenience features, including an electric start and a low oil shutdown system.

Performance

Available Power Ratings

- 8HP
- 9HP
- 9.5HP
- 10HP
- 11HP
- 12HP
- 12.5HP
- 14HP
- 15.5HP

Technical Specifications

Key Components

- Heavy-duty crankshaft
- Precision-engineered fuel injection system

Cooling System	Forced air cooling
Starting System	Electric start
Safety Features	Low oil shutdown

Applications

Suitable Applications

Tractors • Generators • Water pumps • Heavy machinery
