Product Overview

High-Performance Kitchen Hood Motor

The YJ84 shaded pole motor is engineered specifically for kitchen ventilation systems, prioritizing reliability and efficient smoke extraction. Its robust construction features high-quality copper windings designed to withstand the demanding conditions of commercial and residential kitchen environments. This unit delivers consistent performance with high torque and low noise operation, ensuring a clean and safe cooking space for end users.

Technical Specifications

Motor Type	Shaded Pole Motor
Application	Kitchen Ventilation Hoods

Quality & Compliance

Quality Standards	ISO 9001 • ISO 14001
Certifications	CE, UL, VDE, 3C
Compliance Standards	RoHS, REACH
