

# Kitchen Range Hood with Aluminum Filter

This kitchen ventilation system is designed to remove smoke and odors from the cooking area. It features multiple fan speeds, a washable metal filter and can operate in exhaust or recirculation mode.

## Overview

### Kitchen Ventilation Solution

The AH0260 kitchen range hood is a versatile ventilation system designed to efficiently remove smoke, grease, and odors from your cooking environment. Featuring a dual-motor design and adjustable 3-speed controls, it offers reliable performance with low noise operation. This unit supports both exhaust and recirculation modes, making it adaptable to various kitchen layouts and installation requirements.

## Performance Metrics

### Key Performance Indicators
