

Kitchen Range Hood with LED Lighting

This kitchen range hood is designed to efficiently remove smoke, grease, and odors. Constructed with stainless steel, it features a curved glass canopy, integrated LED lighting, a multi-speed fan, touch controls, and dishwasher-safe filters.

Product Overview

Professional Kitchen Ventilation

This modern kitchen range hood is engineered for high-performance extraction of smoke, grease, and cooking odors. Featuring a sophisticated stainless steel and curved glass canopy design, it provides an aesthetic upgrade to professional and residential kitchens. The integrated LED lighting and intuitive touch controls ensure ease of use and optimal visibility while cooking.
