Overview

Kitchen Smoke and Grease Extractor

This high-performance kitchen smoke and grease extractor is designed for professional and residential environments requiring efficient air purification. Featuring an integrated LED lighting system and adjustable extraction capabilities, it effectively removes smoke and grease to maintain a clean culinary workspace. Its durable construction and modern design ensure long-term reliability and seamless integration into various kitchen layouts.

Performance Metrics

Suction Capacity

16 m³/min

Max Capacity

Noise Level

57 dB

Wind Pressure

275 Pa

Electrical Specifications

Power Requirements

- Voltage: AC220V
- Frequency: 50Hz
- Total Power: 188W
- Light Power: 21W
