

Kitchen Ventilation Hood

This range hood is designed to effectively remove smoke, grease, and odors from your kitchen. Constructed from durable stainless steel, it features a powerful ventilation system with multi-speed settings to customize airflow.

Product Overview

Professional Kitchen Ventilation Solution

This durable stainless steel ventilation hood is engineered to efficiently eliminate smoke, grease, and cooking odors from the kitchen environment. It features a powerful, multi-speed ventilation system that allows users to precisely control airflow for optimal performance. The integration of bright LED lighting ensures superior visibility over the cooking area, while the modern aesthetic makes it a versatile choice for professional kitchen settings.

Technical Specifications

Material	Stainless steel
