

Kitchen Ventilation Hood

This range hood provides efficient ventilation for kitchens. It features a stainless steel finish, integrated control panel, and built-in lighting.

Product Overview

Professional Kitchen Ventilation

The AIR-72 range hood is a sleek and modern ventilation solution designed for high-efficiency performance in professional or home kitchen environments. Its premium stainless steel finish provides durability and a sophisticated aesthetic, while the integrated control panel ensures seamless operation. With built-in lighting to illuminate the workspace, this unit effectively removes smoke, grease, and odors to maintain a clean cooking atmosphere.
