

Kitchen Ventilation Hood with Adjustable Fan Speeds

This kitchen ventilator is designed for efficient smoke and odor removal. It features adjustable fan speeds controlled via push buttons and includes a built-in light.

Overview

Efficient Kitchen Ventilation

The 60F49 hood is a versatile kitchen ventilator designed for effective smoke and odor removal in modern culinary environments. It features a durable white painted finish and mechanical controls for reliable operation across multiple fan speeds. Equipped with integrated LED lighting and a multi-layer aluminum grease filter, this unit ensures a clean and well-illuminated cooking workspace.
