

# Kitchen Ventilation Hood with Digital Display

This range hood features a sleek design and a digital display for user-friendly control. It efficiently removes smoke, grease, and odors from the kitchen with its powerful motor and multi-layer filtration system.

## Product Overview

### Professional Kitchen Ventilation

This 900mm kitchen ventilation hood combines modern design with robust extraction capabilities. Featuring a sleek glass canopy and integrated LED lighting, it provides both aesthetic appeal and enhanced visibility for the cooking area. Designed for efficiency, the unit utilizes a reliable copper motor with dual speed settings to effectively manage smoke, grease, and cooking odors.

## Performance Metrics

### Performance Overview

**850 M3H**

Suction Power

**310 Pa**

Air Pressure

**58 dB**

Max Noise Level

## Technical Specifications

### Electrical Requirements

Specification	Value
Power Supply	220-240V/50Hz
Input Power	180w
Lighting Power	2x1.5w LED

### Physical Dimensions & Build

- Body width: 900mm
- Chimney height: 450mm
- Motor type: Copper motor
- Blower box: Metal
- Control type: Push button

## Features

### Key Features

Digital Display, 2 Motor Speeds, LED Illumination, Easy Installation
