Product Overview

High-Efficiency Kitchen Ventilation

This modern kitchen ventilation hood combines powerful performance with advanced user-friendly features. Designed for optimal smoke extraction, it boasts a high air volume and strong static pressure, ensuring a cleaner cooking environment. With its elegant stainless steel finish, gesture-controlled operation, and automated cleaning features, it serves as an ideal solution for professional and high-end residential kitchen setups.

Performance Metrics

Extraction Capacity

1000 m³/h
Air Volume

330 pa
Static Pressure

Design & Features

Key Features

- Gesture sensor non-contact control
- 45° automatic open-close air inlet
- Anti-pinch safety function
- Electric heating cleaning function
- Integrated LED lighting

Construction & Materials

Materials & Build

Anti-fingerprint stainless steel, Black powder coating, All-copper motor

Maintenance

Cleaning Features

Easy-disassemble panel • Electric heating self-clean • Easy-to-clean coating
