

Kitchen Ventilation Hood with LED Lighting

This range hood efficiently removes smoke, grease, and odors from the kitchen. It features adjustable fan speeds and integrated LED lighting.

Product Overview

Modern Kitchen Ventilation Solution

This kitchen ventilation hood combines a unique fashion-forward all-black glass design with high-performance smoke extraction capabilities. It features an intelligent hidden cavity structure and advanced digital DC inverter technology to maintain high pressure efficiency. Designed for professional kitchens, it offers versatile speed adjustment and integrated lighting to create a cleaner and more efficient cooking environment.

Performance Metrics

Maximum Airflow

18 m³/min

Air Exhaust

Total Pressure Efficiency

32 %

Technical Features

Key Design Features	All-black glass panels, Sliding induction switch, Hidden smoke cavity, Telescopic structure
Motor Type	Digital DC Inverter
Speed Control	Full band speed stepless adjustment
