

Kitchen Ventilation Hood with Multi-Layered Filtration

This range hood is designed for efficient kitchen ventilation. It features a circular extraction zone, layered filtration system, and stainless steel construction for durability and ease of cleaning.

Product Overview

Professional Kitchen Ventilation Solution

This modern range hood is engineered for high-efficiency ventilation in demanding kitchen environments. Featuring a sophisticated multi-layered filtration system, it effectively captures grease and eliminates odors to maintain a clean workspace. Its durable stainless steel construction ensures long-term reliability and ease of sanitation, while the integrated display provides intuitive operational control.

Design and Build

Material	Stainless steel
Design Style	Contemporary

Technical Features

Filtration System	Multi-layered, Grease Removal, Odor Elimination
Extraction Zone	Circular extraction zone
Interface	Yes

Performance

Suitable Environments

- Commercial kitchen layouts
- Diverse cooking styles
