

Kitchen Ventilation Range Hood

This stainless steel range hood is designed for kitchen ventilation. It features a curved design with a black control panel, metallic filter, push-button controls, and an integrated light.

Product Overview

Professional Kitchen Ventilation

This stainless steel range hood is engineered for efficient kitchen ventilation and smoke extraction. Its sleek, curved design integrates seamlessly into professional or high-end residential kitchen environments. Equipped with durable metallic filters and user-friendly push-button controls, it provides reliable performance and enhanced lighting for cooking surfaces.
