Product Overview

Professional Kitchen Ventilation

This modern range hood is engineered for high-efficiency ventilation in professional and contemporary kitchen environments. Featuring a durable stainless steel finish, it effectively captures smoke, steam, and airborne grease to ensure a clean cooking area. The unit combines powerful extraction capabilities with quiet operation and user-friendly electronic controls for optimal performance.

Design & Construction

Material Finish	Stainless steel
Design Type	Rectangular chimney, Wide canopy

Performance Metrics

Core Features

1 Quiet Operation	1 Integrated LED Lighting
-----------------------------	-------------------------------------

Control System	Electronic controls for fan speed and light intensity
----------------	---

Maintenance & Filtration

Maintenance

Dishwasher-safe filters • Easily removable

Filtration Technology	Multi-layer filter system
