

# Kitchen Ventilation Range Hood

This range hood is designed for efficient kitchen ventilation. It features touch controls for fan speed and lighting, along with a multi-layer filtration system.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Kitchen Ventilation

This advanced side-suction range hood combines powerful performance with an elegant, compact design to elevate any professional or commercial kitchen environment. Featuring an all-copper motor and an impressive 1000m<sup>3</sup>/h airflow, it ensures rapid removal of grease and odors. With intelligent features like gesture control, electric heating self-cleaning, and an automatic anti-pinch glass inlet, this unit provides both convenience and long-lasting operational reliability.

## Performance Metrics

### Air Flow Capacity

**1000 m<sup>3</sup>/h**

Air Volume

**330 pa**

Static Pressure

## Technical Specifications

### Maintenance Functions

- Electric heating self-cleaning
- Disassemble-friendly panels
- Anti-fingerprint stainless steel finish
- Black powder coating

### Motor Technology

All-copper motor for long-lasting performance

## Design and Controls

### Structural Details

45° Automatic open-close glass • Side suction system • Compact space-saving design

### Smart Controls

Gesture sensor control, Non-contact operation, Digital display

### Safety Functionality

Yes
