

# Kitchen Ventilation Range Hood

This range hood is a kitchen ventilation appliance designed to remove smoke, grease, and odors. It features a sleek stainless steel construction with a glass canopy, multi-layer filtration, integrated LED lighting, and multiple fan speed settings.

## Product Overview

### Professional Kitchen Ventilation

The D8A range hood provides efficient air purification for modern professional kitchens, effectively removing smoke, grease, and odors. Constructed with high-quality stainless steel and an aesthetic glass canopy, this unit integrates seamlessly into contemporary kitchen environments. Featuring a high-performance extraction system and built-in LED illumination, it ensures both safety and comfort during cooking tasks.

#### Key Features

Stainless Steel Construction, Glass Canopy, LED Integrated Lighting, Multi-layer Filtration, Ducted/Ductless Capable

## Performance Metrics

### Suction Capacity

**16 m3/min**

Max Capacity

**275 Pa**

Wind Pressure

**57 dB**

Noise Level

## Technical Specifications

### Electrical Requirements

Parameter	Value
Voltage	220V
Frequency	50Hz
Total Power	188W
Light Power	2 x 20W

#### Dimensions

900 x 500 x 750 mm

## Logistics

### Weight Details

- Gross Weight: 25 kg
- Net Weight: 22 kg
