

Kitchen Ventilation Range Hood with LED Lighting

This range hood is designed for efficient ventilation in the kitchen. It features a contemporary design with a glass canopy, stainless steel body, electronic control panel, digital display, multiple fan speed settings, and integrated LED lighting.

Overview

Professional Kitchen Ventilation

The CHA-200-900A range hood combines a modern glass canopy with a durable stainless steel body to provide efficient air filtration for professional kitchen environments. This unit effectively clears smoke, grease, and cooking odors to maintain a fresh workspace. Equipped with an intuitive electronic control panel and bright integrated LED lighting, it offers seamless operation and excellent visibility during food preparation.

Technical Specifications

Model Number	CHA-200-900A
Control System	Electronic control panel with digital display
Lighting Type	Integrated LED lighting
Construction Materials	Stainless Steel, Glass

Key Features

Core Functionalities

- Multiple fan speed settings
- Digital control interface
- High-efficiency odor removal
- Grease filtration system
