

Kitchen Ventilation Range Hood

This range hood is designed for kitchen ventilation. It features integrated LED lighting, a multi-speed control panel, and a grease filter.

Product Overview

Professional Kitchen Ventilation

This stainless steel kitchen ventilation range hood combines a sleek, modern aesthetic with robust extraction performance. Featuring a sophisticated rectangular chimney design and a wide canopy, it effectively clears air while integrating seamlessly into contemporary culinary environments. Users benefit from adjustable fan speed settings and energy-efficient integrated LED lighting for optimal workspace visibility.

Technical Specifications
