

Kitchenware and Baby Product Sterilizer

This sterilizer is designed for modern kitchens and effectively sanitizes kitchenware and baby products. It features intuitive touch controls and advanced sterilization technology.

Product Overview

Professional Kitchenware and Baby Product Sterilizer

This high-capacity 50L sterilizer is designed to meet the hygienic needs of families with 2-6 members. It utilizes advanced high-temperature quartz heating technology to ensure thorough sterilization of kitchenware and baby products. With a dedicated drying function and a 60-minute cycle time, it provides a convenient and effective solution for maintaining a sanitary kitchen environment.

Technical Specifications

Capacity	50 L
Power Rating	510 W
Sterilization Temperature	120 °C
Cycle Time	60 min
Sterilization Method	High-temperature quartz heating

Design & Build

Rack Material	202 Stainless Steel
Product Dimensions	525 x 430 x 350 mm
