Product Overview

Efficient Knapsack Electric Sprayer

This 16-liter knapsack electric sprayer is engineered for professional agricultural and gardening tasks, offering a cordless, efficient solution for liquid application. Equipped with a reliable electric pump, it eliminates the need for manual pumping, significantly reducing user fatigue during extended operation. The design features adjustable spray patterns and ergonomic support, making it an ideal tool for applying pesticides, herbicides, and fertilizers in fields, greenhouses, and gardens.

Performance Specifications

Battery Power

12 V

Voltage

8 AH

Capacity

Tank Capacity

16 L

Operating Pressure

0.15-0.4 MPa

Outlet Flow Rate

1.2-2.5 L/min

Design & Ergonomics

Key Features

Cordless Operation, Electric Pump, Adjustable Nozzle, Padded Shoulder Straps

Usage & Application

Suitable Applications

- Agriculture
- Gardening
- Pest Control
- Greenhouse Maintenance
- Plant Protection
