

Knee Protection Pads - Pair

These knee pads provide comfort and protection for tasks performed while kneeling. They feature a durable outer shell with a soft, cushioned inner lining and adjustable straps.

Product Overview

Professional Knee Protection

These knee pads are designed to provide essential comfort and protection while working on your knees. Featuring a durable outer shell paired with a soft, cushioned inner lining, they offer a balance of ruggedness and comfort. The adjustable straps ensure a secure and reliable fit for various professional and DIY tasks, including construction, home repairs, and gardening.
