

Korean Standard Power Cord

This power cord is suitable for electric appliances requiring a KC standard connection. It features a 2-pin Korean plug.

Product Overview

Korean Standard Power Cord

This high-quality power cord is engineered to meet the KSC8305 standard, ensuring safe and reliable connectivity for electrical appliances in Korea. Featuring a durable molded plug design with two pins, it is built for consistent performance in standard electrical outlets. The cord supports a rated current of 2.5A and a voltage of 250V, making it an ideal component for various consumer and commercial electronic devices.
