Product Overview

Ku-Band Satellite Ground Mount

The Ku-Band Satellite Dish Ground Mount is a robust and versatile solution engineered for stable satellite signal reception. Designed for both residential and commercial applications, this mount provides a secure foundation for satellite dishes, ensuring optimal alignment and performance. With its weather-resistant construction and adjustable components, it offers a reliable, long-lasting installation that withstands various environmental conditions.

Technical Specifications

Model Size	KU35X40
Installation	Ground Mount
Adjustment	Yes
Key Features	Weather-resistant, Adjustable elevation, Adjustable azimuth, Stable base

Application

Suitable Environments
Residential • Commercial
