

Laboratory Analysis Instrument with Digital Display

This experimental analytical instrument features a digital display and multiple control buttons. Designed for laboratory analysis and experimentation, the device has a two-tone color scheme and a handle for portability.

Overview

Precision Laboratory Analysis Instrument

This laboratory analysis instrument is designed for precise experimentation and data measurement. Featuring a clear digital display and an intuitive interface with multiple control buttons, it offers users streamlined operation for complex tasks. The portable design, complete with a convenient handle, makes it a versatile tool for various laboratory settings.

Technical Specifications

Display Interface	Digital
Interface Language	Chinese
