

Lamb Design Portable Speaker with Fan

This portable speaker features a whimsical lamb design. It combines audio playback with a cooling fan, making it suitable for personal use.

Product Overview

Dual-Functionality Design

This portable speaker uniquely integrates a high-quality audio playback system with a built-in personal cooling fan. Designed in a whimsical lamb motif, the device features a flexible neck for adjustable airflow and integrated speaker components in the head and base. It serves as an ideal playful accessory for workstations or personal spaces, offering both comfort and entertainment.
